Д. ШМИГАЛЬ

ORDER
Ministry of
Agrarian Policy
and Food of
Ukraine No.3933
dated 11.10.2024

DAY OF
APPLICABILITY

TRAINING

KNOWLEDGE
TEST

CERTIFICATE OF
COMPETENCE
(valid for 5 years)

HOW TO OBTAIN A CERTIFICATE OF COMPETENCE?

Select an authorised
training provider on the
Ministry of Economy
website

Apply for training
in your field

Complete training:
theory + practice
(depending on the field)

theory
≥8 hours

theory
≥4 hours

theory ≥6 hours
Practice ≥10
conditional heads of
livestock;
≥50 heads of poultry or rabbits

Take the exam 7–14 days
after training

Receive a document of
completed training and
passed exam

Submit to the SSUFSCP: an application, a declaration, a certificate of issuance of a state certificate, proof of payment (0.03 of the minimum wage)

The SSUFSCP enters the certificate into the Register, the maintenance of which is approved by Resolution of the Cabinet of Ministers of Ukraine No. 1502, and issues it.

Is it possible to obtain a
certificate of competence
without undergoing training?

YES, IF:

You have at least one year of experience in handling animals, acquired before 1 January 2027 (temporary rule until 1 March 2027).

OR

You have completed training at educational institutions whose programmes include topics related to animal welfare

OR

There are documents issued in EU Member States confirming sufficient knowledge and skills regarding animal welfare

You must contact the SSUFSCP with a package of supporting documents and proof of payment.

pigs

National legislation

Order of the Ministry of Economic Development
No. 224 of 08.02.2021 "On the Approval of Requirements for the
Welfare of Farmed Animals during their Keeping"
Entry into force – 05.03.2021

Level of alignment

Fully aligned

APPROVED BY ORDER:

✓ General requirements for the
welfare of farmed animals during
their keeping

01.01.2026

DAY OF
APPLICABILITY

✓ Specific welfare requirements for the keeping of the following
farmed animals:

broilers

laying hens

pigs

calves

REQUIREMENTS FOR THE WELFARE OF FARMED ANIMALS DURING THEIR KEEPING

General requirements

Basic rules

Sufficient number of staff with proven knowledge and competence

Systematic inspection of all animals at least once a day

Sufficient space to meet the animals' needs and allow them freedom of movement

Keeping animals tethered or in confined conditions is only permitted if they are provided with sufficient space

A complete ban on mutilating animals, even for preventive purposes (tail docking, beak trimming, castration without anaesthesia, etc.)

Requirement to keep records of treatment, veterinary medicines and mortality and to store this data for at least 3 years

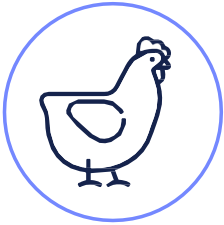

All premises, equipment and ventilation must meet high standards (safe materials, backup systems, alarms)

Not applicable

- animals living in a state of natural freedom
- animals used in entertainment, cultural and/or sporting events and activities
- experimental and laboratory animals
- invertebrates

Broilers

> 500 broilers

Basic rules

- ✓ **Restrictions on broiler stocking density** (33–39 kg/m²)
- ✓ **Clear requirements for ventilation and microclimate**
- ✓ **Mandatory availability and maintenance of complete technical documentation**
- ✓ **Prohibition of any interventions** except beak trimming (up to 10 days) and castration (under veterinary supervision)
- ✓ **Daily record keeping and reporting**
- ✓ **Mandatory training and certification of personnel**
- ✓ **Strict control of total daily mortality**

Not applicable

- keeping **fewer than 500 broilers**
- keep only parent stock of broilers
- incubators
- broilers kept on the floor with access to outdoor runs
- organically reared

Laying hens

> 350 laying hens

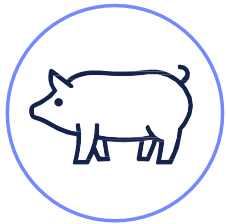

Basic rules

- ✓ **In alternative systems, no more than 9 hens per 1 m² of usable area are allowed**
- ✓ **Lighting – 24-hour cycle**, with a continuous period of darkness lasting approximately 1/3 of the day (8 hours), as well as a period of twilight.
- ✓ **Beak trimming is only permitted up to 10 days of age** and only by qualified personnel.
- ✓ **Clear standards** – 1 nest per 7 hens, 15 cm per hen, litter ≥ 250 cm² per hen, ≥ 1/3 of floor space – litter
- ✓ **No more than 4 levels**, distance between levels ≥ 45 cm, no droppings falling onto lower tiers
- ✓ **Area per perch ≥ 750 cm²**, of which usable area ≥ 600 cm², with a total area ≥ 2,000 cm². Height ≥ 20 cm. Perch length ≥ 15 cm per perch. Nests and bedding are provided.

Not applicable

- of farms (facilities) keeping **fewer than 350 laying hens**
- farms (facilities) where parent stock of laying hens are reared

Pigs

> 15 pigs

Basic rules

- ✓ **Increase in area.** For example: pigs >110 kg — 1.00 m²; for replacement gilts after insemination — 1.64 m², etc.
- ✓ **Mandatory group housing** for sows and replacement gilts
- ✓ **Materials for natural behaviour must be provided** (straw, hay, sawdust, etc. for digging and exploring)
- ✓ **Restrictions on the use of slatted flooring** Clear standards for maximum hole width and minimum slat width
- ✓ **Regulation of tail docking, teeth clipping and castration** Only permitted if there is evidence of aggression and after alternative measures have been taken
- ✓ **Mandatory staff training**

Not applicable

- Keeping **fewer than 15 pigs**

Calves

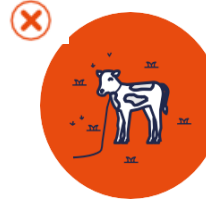

> 10 calves

Basic rules

Prohibition of individual housing of calves older than 8 weeks

Increase in minimum area: <150 кг $\geq 1,5 \text{ m}^2$; 220+ кг $\geq 1,8 \text{ m}^2$

Mandatory lighting with duration standards

Feeding with mandatory roughage and iron control

Calves up to 2 weeks old must have **bedding**

Not applicable

- Less than 10 calves

EU acquis

Council Directive 98/58/EC
on the protection of
animals kept for
agricultural purposes

National legislation

Order of the Ministry of Agrarian Policy
No. 2266 of 29 July 2024 "On the approval of requirements for
ensuring the welfare of working animals belonging to the
equidae family (Equidae)"
Entry into force – 09.09.2024
Day of applicability – 01.01.2026

Level of alignment

Fully aligned

Requirements

Requirements for ensuring the welfare of **working animals** belonging to the **equine family (Equidae)**

Basic rules

- ✓ **Staff** have undergone welfare **training** and received **confirmation** of successful completion of such training
- ✓ Regular **veterinary care for** working animals
- ✓ Provision of adequate shelter
- ✓ **Daily hoof inspection**, regular shoeing, cleaning — only **by trained persons**
- ✓ **Requirements for the quality**, shape, comfort and serviceability **of harnesses. Prohibition** on the use **of whips and goads**
- ✓ **Balanced and high-quality feeding**
- ✓ **Restrictions** on **working** hours, mandatory breaks, active exercise, days off, **reduction of workload** in hot weather

Not applicable

- intended for use during entertainment, cultural and/or sporting events and activities
- intended solely for food production
- experimental and laboratory animals

EU acquis

Commission Directive 2002/4/EC
on the registration of establishments keeping laying hens covered by **Council Directive 1999/74/EC**

LAW OF UKRAINE
"On the basic principles and requirements for the safety and quality of food products"

ORDER of the Ministry of Agrarian Policy and Food of Ukraine No. 431 dated 15 February 2024
"On Approval of the Procedure for State Registration of Facilities and the Procedure for Maintaining the State Register of Business Operators and Their Facilities"

Level of alignment

 **Fully aligned**

For chicken egg production facilities, the method code is indicated:
0 - keeping in accordance with organic production, circulation and labelling of organic products;
1 - free-range keeping;
2 - floor rearing;
3 - cage rearing.

REQUIREMENTS FOR THE WELFARE OF FARMED ANIMALS DURING THEIR KILLING

Partially aligned

EU acquis

**Regulation (EC)
No 1099/2009**

National legislation

Order No. 628 of 29 August 2022
"On the approval of requirements for ensuring the welfare of animals during slaughter and killing"

Implementation

Entered into force together with Law of Ukraine No. 1206-IX (01.03.26) with the exception of:

- **until 1 January 2027**, the provisions of paragraph 1 of Chapter 1 of Section III of the Requirements shall apply only to new slaughterhouses;
- **from 1 January 2027 to all slaughterhouses**;
- Requirements of Chapter 5, Section II
The requirements shall apply from 1 January 2027.

Next steps

Amendments to Order No. 628

Requirements

Requirements for ensuring animal welfare during **slaughter and killing**

Basic rules

- ✓ **Installation of special equipment for stunning, if still used stunning method that is not included in the list of permitted methods**
- ✓ Mandatory monitoring of the animal's condition after stunning — assessment of unconsciousness, reflex test
- ✓ Development, documentation and implementation of SOPs, internal checks, audits
- ✓ Obligation to appoint a qualified person responsible for welfare
- ✓ Retention of documentation on measures taken for at least three years
- ✓ **Staff performing stunning and killing must have appropriate training and certificates of competence**
- ✓ Detailed requirements for the design and layout of slaughterhouses

Not applicable

- Reptiles, amphibians, invertebrates (completely)
- fish (partially)
- slaughter for personal consumption (in certain cases)
- scientific experiments, hunting, fishing, cultural/sporting events

REQUIREMENTS FOR THE WELFARE OF FARMED ANIMALS DURING TRANSPORT

Partially aligned

EU acquis

**Resolution of the Cabinet of
Ministers
No. 1402 of 16 November 2011**
"On Approval of the **Rules
for the Transport of Animals**"

Implementation

Adopted on 16
November 2011
Entered into force and
day of applicability as of
6 February 2012

Next steps

Amendments to Law of
Ukraine No. 1206 "On
Veterinary Medicine"

01.03.2026

Finalise and approve the
draft Order

by the end of 2026

Requirements

Requirements for ensuring animal welfare during **transport**

Basic rules

- ✓ Obtaining a **transport permit, certification**
- ✓ Staff training and obtaining the relevant **certificate of competence**
- ✓ **Planning journey** and developing measures for non-standard situations
- ✓ More detailed rules for different types of animals are set out regarding **stops during transport**
- ✓ **GPS/satellite** monitoring for transport lasting more than 8 hours
- ✓ Detailed requirements for **temperature, ventilation, lighting and watering**
- ✓ Minimum **space** per animal
- ✓ Requirements for **control posts**, ensuring loading and unloading of animals
- ✓ Requirements for maintaining and completing the **journey log**

Not applicable

- Invertebrates
- Private transport (non-commercial)
- Short journeys (if not part of a business)
- Animals transported for treatment
- Seasonal movement of animals by farmers (partially)
- Transportation of own animals by farmers using their own transport for distances up to 50 km from the farm

| Category | Possible costs (one-off/ongoing) | Expected benefits/savings |
|--|--|---|
| 1. Maintenance and infrastructure | <ul style="list-style-type: none"> • Modernisation of livestock facilities • Reducing animal density in livestock buildings • Improved ventilation and lighting | <ul style="list-style-type: none"> ✓ Reduction in mortality and disease ✓ Better productivity and product quality ✓ Less injury and stress |
| 2. Feeding and watering | <ul style="list-style-type: none"> • Automated feeding/watering systems • Reconfiguration of space for easy access to water and feed | <ul style="list-style-type: none"> ✓ Optimal feed conversion ✓ Fewer gastrointestinal diseases ✓ Better daily weight gain / higher milk yields |
| 3. Transport | <ul style="list-style-type: none"> • Modernisation of transport in accordance with EU requirements • Specialised staff training | <ul style="list-style-type: none"> ✓ Reduced road mortality ✓ Higher quality meat (less stress = better pH) ✓ Access to EU markets |
| 4. Slaughter conditions | <ul style="list-style-type: none"> • Purchase of stunning equipment • Refurbishment of reception areas | <ul style="list-style-type: none"> ✓ Less stress before slaughter ✓ Better meat quality ✓ Compliance with EU/OECD requirements |

| Category | Possible costs (one-off/ongoing) | Expected benefits/savings |
|--|--|--|
| 5. Personnel training | <ul style="list-style-type: none"> • Organisation of training courses • Continuous professional development • Training fees • Certificate fees | <ul style="list-style-type: none"> ✓ Professional animal handling ✓ Reduction in production losses ✓ Safer working environment |
| 6. Documentation and internal audit | <ul style="list-style-type: none"> • Costs of self-monitoring systems • Collection of data on welfare indicators | <ul style="list-style-type: none"> ✓ Readiness for EU inspections ✓ Improved farm management ✓ Basis for certification |
| 7. Ethical and humane motivation | <ul style="list-style-type: none"> • Integration of humane practices into corporate culture • Working with public opinion | <ul style="list-style-type: none"> ✓ Recognition of the company as socially responsible ✓ Reduction of public pressure/smear campaigns |
| 8. Expansion of the trade market | <ul style="list-style-type: none"> • Costs of adapting to importers' standards • Translation of documentation | <ul style="list-style-type: none"> ✓ Entry into the markets of the EU, Canada, Singapore, South Korea and others ✓ Advantage in public procurement |

Під час круглого столу «Євроінтеграційні законодавчі вимоги до молочних ферм щодо здоров'я і благополуччя тварин та процес контролю сирого молока», що відбувся в рамках XVI Міжнародного молочного конгресу, начальним відділу з питань здоров'я та благополуччя тварин управління санітарних і гігієнічних заходів Департаменту державної політики у сфері санітарних і гігієнічних заходів та продовольчої безпеки Мінагрополітики Віталій Крюков розповів про стан гармонізації національного законодавства щодо вимог ЄС та про зміни, що вже діють або будуть введені в дію разом із Законом України «Про ветеринарну медицину» № 1206, або з 1 січня 2026 року в чинний законодавство тварин.

БЛАГОПОЛУЧЧЯ С.-Г. ТВАРИН: СТАН ГАРМОНІЗАЦІЇ ЗАКОНОДАВСТВА УКРАЇНИ ТА ЄС

Питання гармонізації вимог благополуччя тварин є одним із найважливіших у країні ЄС. І це важко переоцінити для України, існують величезні розбіжності між національним законодавством та вимогами ЄС. У цьому матеріалі ми розповімо про стан гармонізації законодавства України згідно з вимогами ЄС.

Застосовуючи на практиці вимоги ЄС до благополуччя тварин, ми зможемо підвищити конкурентоспроможність української продукції на європейському ринку. Крім того, це допоможе захистити здоров'я наших громадян та зберегти довкілля.

Вітаємо наших партнерів з України та Європи!

НОВИНИ АБМ 29

На сьогоднішній день законодавства в царині благополуччя тварин України та ЄС майже ідентичні. Наступний крок після гармонізації національного законодавства – це імплементація європейських актів у чинне законодавство України. Як це зробити, які заходи потрібно вжити, щоб досягти бажаного результату, це тема сьогоднішнього матеріалу.

Вітаємо наших партнерів з України та Європи!
